Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

DECLARATION OF JOHN E. WAGNER

This is a declaration in support of the Request for Reconsideration of Patent Term Adjustment Under 35 U.S.C. 154(b).

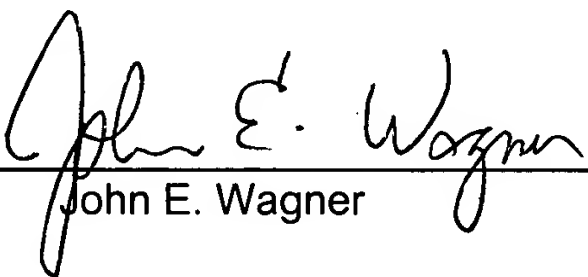

I, John E. Wagner, aver and state:

1. I am an attorney of record throughout the entire prosecution of the above-identified patent.
2. The prosecution of this application was a major effort to which no less than four attorneys have devoted extensive effort in the attempt for prompt issuance as a patent.

3. Enclosed and incorporated by reference as Exhibit 1a, b, c, and d are handwritten lists of Patent Office telephone numbers on Pages 1 through 4 and a summary of telephone and fax communications in addition to the telephone calls made to the client and to the U.S. Patent and Trademark Office in an attempt to expedite this application.
4. This is the undersigned's 52nd year as a practicing patent attorney, and it is believed the first to my recollection that I have ever had to conduct with telephone conversations with the Examiner's supervisor. I believe that this is a tribute to the long history of effective examination and supervision of examiners in the U.S. Patent and Trademark Office. Virtually of these calls were made to these supervisors (3) when the Assistant Examiner was not available.
5. It is believed the foregoing Request for Reconsideration, along with this declaration and its attachments, illustrates an exemplary attempt to meet the objective of patent term adjustment, particularly in favor of the seriously ill inventor whose pending applications were made special.
6. To my recollection, no contact was made or received by this office until the telephone request to make a six way restriction election 17 months after the application was filed.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made herein on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity the patent to which this verified statement is directed.

Executed this 29th day of July 2005, Glendale, California.

Signed 
John E. Wagner
